— 2021

Revert Technology Pvt Ltd

the basics of writing and running Python scripts to more advanced features such as file operations, regular expressions, working with binary data, and using the extensive functionality of Python modules. Extra emphasis is placed on features unique to Python.

Udemy

This is one of the best Word Press courses you will find. Gregg is a phenomenal instructor and his lesson plans are well designed. The lessons are very easy to comprehend and engaging. I started this course with no knowledge nor understanding of Word Press and now I'm super confident in my ability to produce quality websites.

Internshala Trainings

React is a JavaScript library for building web user interfaces. ... This Introduction to React using JavaScript/ECMAScript training course teaches developers the skills they need to immediately use React to build modern applications.
